

**LEONIA
RECREATION
PRESENTS**

Outer Space & Physics Fun (ages 7-11)

Come join an exciting world of space exploration as you build and take home your very own Orbiting Solar System Kit! You will assemble your own model, learn all about our planetary neighborhood, and watch the planets move around the sun with a wind-up motor inside. Set the planets in motion with a flick of your wrist! Take part in other exciting activities involving physics, air pressure, and density. Check out our real meteorite fragment sample! Watch a cosmic rocket shoot up fifty feet into the air! Be mesmerized as you assemble and take home your own stunt plane and learn about the four major forces of flight. You will also witness some neat demonstrations from your instructor. Watch as an egg is magically sucked into a bottle, behold a tornado being created, and much more in this fun and exciting program!

Minds in Motion LLC is dedicated to providing the highest quality programs to inspire and educate elementary school aged children in a fun, interesting, and hands-on approach. Our goal is to have a healthy and successful company that is a leader in providing children with camps.

Director, German Galindo - twenty seven years experience running science programs for kids nation wide!
